

Southeastern Conference Engineering Deans Graduate Fellow Program

The deans of the Southeastern Conference (SEC) have established the SEC Engineering Deans Graduate Fellow Program. The program provides top-off funds to augment the graduate stipends of selected newly admitted PhD students whose undergraduate engineering (or related) degrees are from another official SEC university. The minimum annual overall stipend (GTA or GRA) including the SEC Engineering Deans Graduate Fellow Program stipend would be \$30K plus tuition and fees.

Please fill out the information below.

First Name: _____ Last Name: _____

Middle Name: _____ Date of Birth: ____/____/____

Undergraduate Major: _____

Undergraduate School: _____

Date/Intended Date of Graduation (Month/Year): ____/____

Application Information:

Please note that you must apply for admission through the normal application process at the SEC college of interest.

PhD Degree Applied For: _____
(i.e. Electrical Engineering)

SEC School Applied to: _____

Date of form submission: ____/____/____

Please send fellow application form electronically to the following address depending upon the college to which you are applying:

University of Alabama
Dr. Viola Acoff
vacoff@eng.ua.edu

University of Arkansas
Dr. Norm Dennis
